

組 () 番号 () 名前 ()

I find it encouraging that the list of scientific studies using citizen scientists is quickly getting longer. [A] Still, we're just beginning to realize the potential of citizen science. [B] More scientists need to recognize how much volunteers can contribute to professional research. [C] As I see it, it's time for us to expand the old, conservative view of "science for people" to include a more democratic one of "science by people."

設問1 「原因・理由 so 主張」の So を入れるとすると、[A]~[C]のどこか。(20)

設問2 主張文に下線を引きなさい。(20)

設問3 下線部 one の具体的な内容を、名詞 1 語で表現しなさい。(20)
()

設問4 波線部を和訳しなさい。(20)

設問5 最も適当なものを1つ選びなさい。(20)

What personal view is expressed in this paragraph?

- ① Eventually, scientific knowledge will come mainly from amateurs.
- ② Not enough scientists appreciate the advantages of citizen science.
- ③ The recent shift toward relying on volunteer data is disappointing.
- ④ Too many studies using citizen science are now being conducted.
